

REMARKS

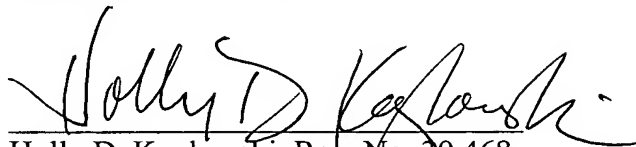

By the present amendment, the specification is amended to recite the related application information. Additionally, original claims 1-18 are cancelled, as are claims 19-42 presented in the International Stage of the application. Claims 43-66 are provided herein.

Support for claims 43 to 66 can be found in the application as originally filed, for example in the original claims, in the Examples and in the specification at pages 15 to 16, 18 and 36 to 37. The peptides of claims 63 and 65 are supported by Tables 4 and 11 as originally filed and by their encoding nucleotide sequences in Appendix I as filed.

Finally, a sequence listing in proper U.S. format is provided.

It is believed that these changes do not involve any introduction of new matter, whereby entry is believed to be in order and is respectfully requested.

Respectfully submitted,
